e-Ultimaster registry

37,198 patients enrolled

An independent Clinical Events Committee reviewed and adjudicated all endpoint-related serious adverse events

Dual antiplatelet therapy(DAPT) was at the discretion of the operator

Primary endpoint

Target lesion failure at 1 year

Cardiac death, target vessel MI or clinically driven target lesion revascularization

Secondary endpoint

Safety

Cardiac death/myocardial infarction Stent thrombosis (according to ARC definitions; acute, subacute and late) Major vascular and bleeding complications

Efficacy and patient-oriented endpoints

Target lesion revascularization (TLR) Target vessel failure (TVF) (Cardiac death, target vessel MI or clinically driven target vessel revascularization) Patient-oriented composite endpoint (POCE) (All-cause death, any MI or any coronary revascularization)

Study devices

Ultimaster M Sirolimus Eluting Coronary Stent System

Platform Thin strut, CoCr Open cell design

Polymer PDLLA PCL copolymer resorbed within 3-4 months

Coating Abluminal Gradient coating

Drug Sirolimus

Learn more about Ultimaster BP-DES

1) Final results from an all-comer worldwide registry on percutaneous coronary intervention with bioresorbable polymer sirolimus-eluting stent and impact of geographical differences, presented at PCR2020 e-Course 2) Search result relating of biodegradable polymer DES publication in Pubmed at June 2020.

Total population

"Ultimaster DES showed an excellent performance at 1 year with a TLF rate <5% in all continents and stent thrombosis rate <1% (1"

Marco Roffi

Total patients: 37,198

Europe: 25,736 (69%) Asia: 6,614 (18%) Africa/Middle East: 2,438 (7%) S America/Mexico: 2,410(6%)

Clinical outcomes at 1 year

Are you interested in geographical difference?

e-ULTIMASTER registry: final results and differences across continents

►

Bifurcation lesion

"4,395 patients with bifurcation lesions treated with Ultimaster DES showed excellent clinical outcomes with TLF 5.1% at 1 year ⁽²"

Bernard Chevalier

Are you interested in other Bifurcation techniques ?

Check more information on PCR online

Multivessel disease

"Ultimaster DES demonstrated excellent results even in this complex population ⁽³"

David Hildick-Smith

Check more information on PCR online

Complex PCI subgroups

"Overall ischemic event rates at 1 year in patients undergoing complex PCI were generally low ⁽⁴"

Mamas MAMAS

Clinical event rate at 1 year
